TOMORROW DAY OF GREAT MARATHON

Tomorrow afternoon at the League Baseball Park in Kaimolili the Honolulu public will have the opportunity of witnessing the greatest Marathon race ever attempted in the Hawaiian Islands. The race will be a meeting between the two champions of the North Pacific—Nigel Jackson and Tsukamoto; and for the second reason that the champion runners are both of the most energetic and determined aspirants to first honors.

The great race has had less advertising, perhaps, than any big event yet pulled off here. And it is probably just as well, for its immensity and importance tell the story in full. That the baseball park will be crowded is no longer doubted.

For two days the street cars have carried announcements of the big event, and last night all the leading theaters used the same upon their screens. The latter were gotten out by Eddie Fernandez and W. Chilton, Jr., who are working overtime to make the program the biggest success ever pulled off on a local track.

There will be no other sports in the city tomorrow afternoon, and all the baseball fans and other "bleeds" will see the Marathon. Even the band will play for the big race, and Mayor Fern will be there to see that it goes off properly.

The runners did their last work yesterday. Today they are resting for the arduous task of tomorrow. Nigel Jackson yesterday weighed 137 pounds, which is quite a pull up from around 120 and brings him into prime condition. Tsukamoto has completed the Marathon distance a number of times and his speed has surprised even his most enthusiastic supporters. A surprise in store may be old man Kaoo. In fact there are those who predict that if he can keep up his longer step with his old-time steady stride—he will beat Tsukamoto and Jackson.

Jackson's position in tomorrow's race is unique. He has a host of friends who wish to see him retain his claim to the championship; but it is plain that the whole field is against him. "Beat Jackson" is the aim of every man Jack of the runners, and that is what they all try to do. What Jackson will be doing in the meanwhile is another story.

Make Denatured Alcohol for 8c a Gallon

The navies of the world have adopted tax-free commercial alcohol for smokeless motive power for ships. It saves boiler room, coal room, handling of fuel and is a little cheaper than steam power. Just think! 80 per cent. of water is the principal part converted into alcohol by chemical action in contact with fermented vegetable waste matter and oxidized saw-dust, wood syrup and lime or any carbo-hydrate. Combining with 94 per cent. oxygen or atmospheric air when used for motive power, heat or other light purposes. The real denatured alcohol opens an absolutely new market for the use of saw mill waste, pulp, paper and chemical fibre mill waste product, and for millions of tons of farm products that even the world's greatest monopoly cannot touch. Our denaturizing distilling apparatus is constructed of steel plate galvanized and the highest grade seamless copper tubing, tested to 300 pounds pressure. Its conductivity makes possible the instantaneous hot steam alcohol distilling. A very simple but serviceable still and doubler, that will produce tax-free denatured alcohol daily for 8 cents a gallon. That what is the most difficult to secure is that which we prize the most. No government supervision, no speculative futures, the market demands the product. The motor boats, the automobiles and the navies of the world use it. Unquestionable references. We are ready to negotiate with responsible individuals on very liberal terms.

This wood waste alcohol distilling apparatus is of untold benefit to farmers, lumbermen, varnish makers, paint manufacturers, soap makers, paper pulp and chemical fibre mills, etc., for the utilization of wood waste by distillation, which puts real denatured alcohol beyond competition with gasoline or kerosene.

Address today:
The Wood Waste Distilleries Co., Inc., Cleveland, Ohio, U. S. A., desires to establish western and far eastern agencies; they have a very flattering proposition to offer.

Admission will be as usual, twenty-five cents, ladies free and kids ten cents.

The schedule is as follows:
December 11, Malle vs. H. I. W., H. S., vs. Puns; December 18, H. S. vs. Malle, H. I. W. vs. Puns; December 25, Christmas Day, Malle vs. Puns, H. S. vs. H. I. W. The second series will repeat the first series.

The Honolulu Association Football League extends a cordial invitation to the Military Athletic Association to enter a team or teams in the soccer series that was scheduled and arranged for last night. The secretary is J. B. Walker, who can be found at Peacock & Co. any time during the day.

ALWAYS FRESH AIR.

One of the features of Haleiwa is the pure fresh air at all times. It is one of the things that goes far toward keeping people healthy and happy. The meals and service at Haleiwa are all that the most exacting person can demand. Among the attractions is the golf links, admitted to be the best on the island and so located that the maximum pleasure is to be had out of a game. The tournaments there are always as exciting as a golf tournament can be and the meals furnished after a turn are most enjoyable. The management caters to automobile parties and provides meals for them at a short notice. The road down at this season is particularly fine.
